Life Line[®]

**WATER PURIFIER
RO SYSTEM**

**NEW
LAUNCHED**

Lifeline **Xperia**

**RO with Active Copper Filter
(Enhance purity of Water)**

- High Purification Capacity of 12 Ltrs/hr
- Wall Mountable Life Line Technology water Purifier
- Purification by RO+UV+UF+TDS adjuster+ Active Copper Filter Cartridge
- 10Ltr. Storage Tank
- Fully Automatic Operation with Auto-On and Auto-Off
- High Capacity Storage Tank with Purified Water Label Indicator
- Food-grade, ABS Plastic Construction with New Look
- Suitable For Purifying Water from all Sources with Copper Filter Cartaidge Provides Goodness of Copper and Optimum Amount of Other Micronutrients Like Magnesium, Copper, Zinc

COMMERCIAL RO SYSTEM

The RO System provide the most reliable and economical solution for treatment of water. This technique can treat tap, brackish, sea and waste water to produce. Specific treated water quality for Various applications. The models are standarised from 10LPH to 10000 LPH flow and are suitable for domestic, commercial and Industrial applications.

50LPH RO SYSTEM

- Purification Capacity: 50 Ltr/ Hours
- Filter Housing (20"): 3 Nos
- Filter Cartridge: Sediment (2 Nos), Activated Carbon(1No)
- Ro Membrane: 1812-100 GPD (4 Nos)
- Input Voltage: 220+₋ 15%
- Operating Voltage: 24 VDC
- Booster Pump (24 Volt/150GPD): 2 Nos
- Solenoid Valve (24VDC): 1 No
- Adopter (24): 2 Nos

MRP: 42,500/-
